What Bike(s) do you own?		

Welcome to the Hargroves Cycles demo event. We hope you manage to thoroughly test all the bikes you have planned to. It's important however to bear certain safety measures in mind.

- **Always wear a helmet;** you are not permitted to ride any of the bikes unless you are wearing a helmet.
- **Familiarise yourself with the bike; remember** all bikes behave differently, so take your time to become familiar with the bike before tackling technical trails.
- **Don't push the limits;** the demo day is designed to give you an opportunity to feel how the bike you are interested in buying, performs in a real off road environment. The bike must be treated with respect and ridden only in the manor in which it has been designed.
- **KEEP BOTH WHEELS IN CONTACT WITH THE GROUND AT ALL TIMES**
- **RIDE WITHIN YOUR ABILITIES**
- **Stick to the trail;** Queen Elizabeth Country Park has miles of way-marked cross country bike trails. PLEASE STICK TO THEM and stay off foot paths. Trust us, the ride is much more rewarding if you do.
- **Ask a member of staff;** Hargroves Cycles staff, along with bicycle manufacturer representatives are on hand to answer any questions you might have. Please let them help you set up the suspension for the bike you choose to ride **BEFORE** you set off. This will provide a much better ride quality and also resist damaging the bike. Make sure you are riding an appropriate sized bike and don't exceed the maximum seat height.

Please hand in your **Driving License/Passport and matching credit card** along with this form. We will store these items in a locked money safe hidden away from public view behind locked doors. Your Driving License/Passport and security credit card is kept under our full responsibility.

While in your possession, the bike you are riding is your responsibility. If you allow anybody else to ride the cycle, that too is your responsibility until the cycle has been returned. It is expected to get muddy and dirty, so have fun. However, it is your responsibility to pay for any damage resulting from miss use. A snapped chain or puncture is not considered to be miss use. Puncture repair facilities are available at base camp or if you are riding with a guide, they will be carrying essential tools.

Any injury sustained when out on a bike, is solely your responsibility. Hargroves Cycles Ltd, its staff or the manufacturers supplying bikes on the day, may not be held responsible.

I hereby agree to all the above terms and requirements (sign below)
